

Your transformation journey starts here...

Development on all levels

We work across all organizational levels to develop skills, enhance decision-making, and embed accountability. Each level has multiple programs from each verticals with our certification

- **Level "F"**: CXO, Proprietor, Partner, Owner, Director etc. are covered for this level (board level) programs
- **Level "E"**: These programs cover VP, GM, DGM, AGM etc.
- **Level "D"**: These type of programs are suitable for Manager, Deputy Manager, Assistant Manager etc.
- **Level "C"**: Engineer, Executive etc. are covered in such programs
- **Level "B"**: Suits to Supervisor, Officer etc.
- **Level "A"**: This is for your ground zero workforce i.e. Peon, Labourer & Technician of all skills

Who We Are

About Us

kArandhamin Consultancy is a startup in the field of consultancy and capability development. We have started our professional journey in the month of March 2026. We are very new in the business but not without engagement. We have clientele across India. We have our office at Navi Mumbai, India.

Our team members are having 10 to 30+ years of expertise, experience and exposure in various business verticals. We are giving Engineering, Management, Business & Sustainability solutions. Well-structured capability development programs also available with & without customization.

**CAPABILITY
DEVELOPMENT**

*Cost saving + performance
improvement*

Building culture that delivers results.

Capability Development

Learn. Refine. Repeat.

Capability development, in our approach, is about building, on all levels, the ability to perform — consistently and independently. We focus on strengthening people, systems, and processes together, ensuring that learning translates into real execution on the ground. Our interventions are practical, outcome-driven, and closely aligned with business needs. Enabling teams to deliver measurable improvement rather than theoretical gains to sustain performance & adopt to change with continued improvement over time.

Engineering

Mainly we cover design, planning, quality, industrial engineering, production engineering, manufacturing / operational excellence, entrepreneurship (engineering side) etc. under this vertical. We deliver all parts of Engineering.

“Learning fuels our growth; refinement shapes our excellence.”

Management

This vertical covers strategy, resource deployment, organizing, monitoring, controlling, decision making, leadership, performance, system, culture etc. But not limiting to them, we can cover all management functions, subjects and roles.

We also cover Supply Chain Management, Finance Management, Human Resource Management, Marketing Management, Operation Management, IT Management, Business Analytics, Innovation Management, Project Management etc.

Driving growth through structure.

Business

Although Business itself is a vast vertical with respect to fields it covers but we are more concentrating on growth, startups, business planning and strategy.

Our virtual *Startup Studio* is a unique place to get developed through our mentoring & incubation tools.

Sustainability

We have expertise in developing sustainability culture in an organization. We cover resources, waste, reduce + reuse + recycle, compliances, practices, improvement, improvise and innovations etc. We also cover ESG, SDG, Footprints & Public Relations on demand. We can even support for whole CSR process and selection of right kind of causes matching with policies.
